

Dear web users or listeners of 88.8 FM from all over the world, if you see in Grenouille's project ideas you'd like to support : it's time to donate !

Radio is a tool to share. It's a way to learn from each others. It's a mean to meet in real life, on air or on the Internet.

And because we believe in collaborative models, we are launching a fundraising campaign.

From the 20th April to 20th of May, there is one thing to do : support Radio Grenouille.

Whether it's 1 or 1000euros, it will always be a great help for us...

www.radiogrenouille.com

You said Grenouille ?

Radio Grenouille was born in 1991 in the Toursky Theater. Crossroads between culture, arts, creative and civic expressions, Radio Grenouille has been one of the first residents of "La Friche Belle de Mai" ten years later. Thanks to the studio-workshop Euphonia, Radio Grenouille is also now a major cultural actor of Marseille.

Multidisciplinary would be the best way to describe Grenouille today. It's an associative radio, a musical and artistic scene, a projects producer, a mediator and sound diffuser, a student media, a local and international actor, a sound creation workshop, a place to share knowledge and practices... Each of us sees, listens, explores one or several of these aspects.

Grenouille represents 128 000 regular listeners in Marseille (including 42 000 at least once a week), around 30 000 followers, 80 volunteers who participate in one of the radio program, and a hundred of actions and events per year co-produced with our partners.

Why do we need you ?

Grenouille has developed mostly thanks to public subsidies. Over the years, the diversification of our activities allows us to be eligible for diverse fundings about radio, local activities with inhabitants, artists or students.

Today, 75% of our annual budget is based on those public subsidies, the other part being taken in charge by co-productions, editorial partnerships and... also with a little bit of advertising for some cultural events on air. As public budgets are being cut off, we must, in order to survive, diversify our fundings.

We need you to invent a new collaborative financing model, a model involving each of us.

What will your donation be used for ?

Your participation will allow us to give the diversity of Grenouille an existence. It will allow us to continue to welcome on air varied expressions, from dance to music from here and from elsewhere, to build a radio with one, two, ... one hundred people, to discover initiatives, tease your ears with surprising songs... And many other things!
